

KESHAVA PANDI A S

AI/ML Engineer | Computer Vision | Generative AI

8148370243 - keshavapandi@gmail.com - [GitHub](#) | [LinkedIn](#) | [Portfolio](#) | [Leetcode](#)

PROFESSIONAL SUMMARY

AI & Data Science graduate with hands-on experience in computer vision, OCR, generative AI, document processing, and AI-based quality inspection. Experienced in Python, OpenCV, Transformers, Stable Diffusion, LCM-LoRA, and AI model development. Built and integrated AI solutions through internships and independent projects.

PROJECTS

TEXT TO IMAGE GENERATION

Self project | 2024 - 2025

- Built a local text-to-image generation system using Stable Diffusion.
- Integrated LCM-LoRA to accelerate image generation and reduce inference latency.
- Optimized GPU memory utilization for running generative AI workloads on constrained hardware.
- Improved inference efficiency through performance and memory optimization.

SERA - DESKTOP AI ASSISTANT

Self project | 2025 - 2026

- Agentic AI assistant powered by LLMs, STT, TTS, vision, memory, and tools.
- Supports voice and hotkey activation with intelligent fallback across processing systems.
- Enables conversations, contextual understanding, task automation, information retrieval, and personalized interactions.
- Features a visual 2.5D core character representing SERA's intelligent presence.

HOSTEL MANAGEMENT SYSTEM

Hackathon project | 2023 - 2024

- Developed a hostel management system to automate gatepass, complaint, and booking workflows.
- Designed modular functionality to organize and streamline hostel operations.
- Automated routine workflows to reduce manual administrative effort.
- Applied structured system design principles to improve maintainability and scalability.

TECHNICAL SKILLS

- **Programming** : Python, C, Java
- **Machine Learning** : ML, DL, Computer Vision, NLP, Model Training, Model Deployment
- **AI / Generative AI** : Transformers, Stable Diffusion, SDXL, LoRA, LCM-LoRA, OCR
- **Computer Vision** : OpenCV, Image Processing, Object Detection, Image Preprocessing
- **Frameworks & Tools** : FastAPI, Flask, Git, GitHub
- **Frontend** : HTML, CSS, JavaScript

INTERNSHIP EXPERIENCE

RGB AI - AI/OCR INTERN

JUN 2024 - JUL 2024

OCR PROCESSING SYSTEM

- Developed an image-processing pipeline for cheque image enhancement.
- Removed grid lines, symbols, and noise while preserving meaningful text.
- Prepared enhanced images for downstream OCR and text extraction.

OXYHER - FULL STACK DEVELOPER

DEC 2024 - JAN 2025

OXYHER — E-COMMERCE PLATFORM

- Contributed to the development of an e-commerce platform for women's intimate hygiene products.
- Worked on product browsing and purchasing workflows.
- Focused on creating a simple and user-friendly shopping experience.

ORANGE AUTOMATION AND AI SOLUTIONS - AI/ML INTERN

JUN 2025 - JUL 2025

AI-BASED QUALITY INSPECTION AND DEFECT IDENTIFICATION

- Developed an AI-based computer vision system for terminal-block assembly inspection.
- Detected components and verified assemblies against the expected BOM.
- Implemented a rail measurement module using manual calibration for dimensional verification.
- Integrated inspection and measurement modules into a QML-based interface.

CERTIFICATIONS

- Fundamentals of Deep Learning - NVIDIA
- Foundations of Cyber Security - Google
- Building Real-time video AI applications - NVIDIA
- Transformer Based NLP - NVIDIA

EDUCATION

Sri Ramakrishna Engineering College	(2022 - 2026)	BTECH - ARTIFICIAL INTELLIGENCE AND DATA SCIENCE CGPA : 8.3
Sri Ramakrishna Engineering College	(2023 - 2025)	B.TECH. (SPECIALIZATION) - INTELLIGENT SYSTEMS CGPA : 8.75
SRV Boys Higher Secondary School	(2021 - 2022)	12TH STATE BOARD Percentage : 88.16
Sri Sowdambika Convent Matric Hr. Sec. School	(2019 - 2020)	10TH STATE BOARD Percentage : 86.6
